

Morocco energy storage lithium iron phosphate battery manufacturer

Overview

OCP plans to produce 30,000 tons of intermediate materials for LFP batteries by 2027, while its subsidiary Mera Batteries aims to achieve a production capacity of 1 GWh by 2026. Which Chinese lithium battery companies are based in Morocco?

Since 2023, several Chinese lithium battery industry chain companies, including CATL, Gotion High-Tech, Sunwoda, BTR, Huayou Cobalt, CNGR Advanced Material and Tinci Materials, have collectively invested in Morocco and built factories. The battery industry chain centered around LFP is forming rapidly.

Will Huayou Cobalt & LG Energy Solution Co-build a battery plant in Morocco?

Huayou Cobalt and LG Energy Solution will co-build a plant in Morocco, one for 50,000 tons of LFP annually and another for 52,000 tons of lithium conversion annually. In addition to abundant phosphate reserves, Morocco also possesses metal resources like cobalt and lithium needed for battery production and has cost advantages.

Where are lithium batteries made?

Tinci Materials plans a factory in Morocco with an annual production of 300,000 tons of lithium battery materials. Huayou Cobalt and LG Energy Solution will co-build a plant in Morocco, one for 50,000 tons of LFP annually and another for 52,000 tons of lithium conversion annually.

Which companies are sourcing electric vehicle battery plants in Morocco?

Battery industry giants, including South Korea's LG and China's Gotion, have announced three major electric vehicle battery plants in Morocco in recent months. But the sourcing of their critical - 10/30/2023.

Is China relocating its lithium battery plant to Morocco?

Finally, at the end of August Tinci Materials, another Chinese manufacturer,

revealed that it would relocate its Czech lithium battery components plant to Morocco. For his part, Ouriaghli, alongside OCP Group boss Mostafa Terrab, set up a joint venture in late September between Al Mada and the Chinese company CNGR.

What's going on with EV batteries in Morocco?

The battery industry chain centered around LFP is forming rapidly. In June this year, the Moroccan government announced that Gotion High-Tech would invest \$1.3 billion (US) to build a gigafactory for EV batteries.
