

New Liquid Flow Battery

Overview

Researchers in Australia have created a new kind of water-based “flow battery” that could transform how households store rooftop solar energy. Credit: Stock Monash scientists designed a fast, safe liquid battery for home solar. The system could outperform expensive lithium-ion options.

New Liquid Flow Battery

[Flow Batteries: The Future of Energy Storage](#)

The basic structure of a flow battery includes:
Electrolyte tanks: These hold liquid solutions, often containing metal ions, which store energy.
