

New Zealand Industrial Energy Storage Equipment Manufacturer

Overview

Here at Aggreko, we understand that every business in New Zealand has different needs and requirements - which can also change at the drop of a hat. Which is why our battery storage units are mobile, modular and scalable to match those changing needs. Single units can be easily combined into an integrated.

At no upfront cost and for a competitive rental fee, we guarantee that our systems deliver 24/7 reliability and 100% peace of mind: O&M services, remote.

The 1 MW Y.Cube is a ready-to-install energy storage system - with everything included in a standard 20ft container. That includes batteries, inverter, HVAC, fire.

Our contracts start with rental periods from weeks and are based on a regular weekly, monthly or annual fee. Terms can be easily adapted to fit your business.

What is Sungrow energy storage?

Sungrow have developed an innovative energy storage solution for residential applications. This battery system can be used to store excess solar generated for use at night, provide backup power for when the grid goes down or for full time off grid applications.

What is a battery energy storage system?

A battery energy storage system (BESS) is a technology that allows for the storage of electrical energy in batteries, which can then be used to power electrical loads. BESS can be used for a variety of applications, including grid stabilisation, load shifting, backup power, and integration with renewable energy sources such as solar and wind power.

Does Deutz New Zealand sell gensets?

DEUTZ New Zealand also supplies Gensets designed and developed to thrive in the harshest local conditions. We can help you with a range of diesel, gas

and electric drivetrains for industrial, mining, marine, energy and agricultural use, plus spare parts and service for all DEUTZ engines and Gensets.

What types of generators are available in New Zealand?

Our wide range of power generators include portable power stations, industrial and standby generators, portable diesel generators, thermoelectric generators, 3-phase generators and more. Our generators service many industries in New Zealand and we have premium quality generators for sale at highly competitive prices.
