

Nordic solar intelligent control system price

Overview

Is Nordic solar integrating battery storage into a solar park project?

Operating in 12 European countries, the solar energy company Nordic Solar is investing heavily in integrating battery storage into its portfolio of solar park projects and is now launching the construction of its first project, which is located in Denmark.

Why should I join Nordic solar?

Joining Nordic Solar means building a career with exciting opportunities. You will find a space to grow, learn and engage in a collaborative environment. Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available.

Who is Nord Pool?

Nord Pool runs the leading power market in Europe, offering day-ahead and intraday markets to our customers. Trade power with us in 16 countries and benefit from related services such as compliance, data and knowledge-sharing.
