

Peruvian Energy Storage Solar Power Generation Company

Overview

Will Inkia Energy become Peru's largest renewable power producer?

Inkia Energy aims to become Peru's largest renewable power producer by adding approximately 1 GW of solar power and two wind projects with a combined capacity of at least 600 MW by 2026.

Does Inkia Energy have a solar power plant in Peru?

(Inkia, 11.Oct.2024) — Inkia Energy, through its wholly-owned subsidiary Kallpa, received environmental approval for the expansion of its solar power plant currently under construction in Southern Peru, a leading global solar resource hub.

What will Inkia do with 'Peru's solar hub'?

With these three projects, Inkia will consolidate the energy of 'Peru's Solar Hub', contributing approximately 1 GWp of renewable capacity to the National Interconnected Grid starting in the fourth quarter of 2025. In addition, the company expects to launch two wind projects, with an aggregate capacity of at least 600 MW, in 2026.

Will Peru's solar hub become a 'renewable power hub'?

The expansion is a part of the company's plan to establish Peru's solar hub, which is expected to contribute approximately 1 gigawatt peak of renewable capacity to the country's national interconnected grid by the fourth quarter of 2025.
