

Peruvian solar photovoltaic power generation direct sales

Overview

What is the solar PV market in Peru?

According to GlobalData, solar PV accounted for 3% of Peru's total installed power generation capacity and 2% of total power generation in 2023. GlobalData uses proprietary data and analytics to provide a complete picture of this market in its Peru Solar PV Analysis: Market Outlook to 2035 report. Buy the report here.

What percentage of Peru's Electricity is generated by solar PV?

Solar PV accounted for 3% of Peru's total installed power generation capacity and 2% of total power generation in 2023.

Is solar energy a good investment in Peru?

Solar energy has tremendous potential in Peru, which can be witnessed in the upcoming period. Although the government of Peru is exceptionally modest in terms of the renewable goal, with the aim of 5% by 2025, the government has launched several initiatives and schemes to encourage the growth of renewables commercially and residentially.
