

Photovoltaic energy storage project investors

Overview

Why did affiliate Energy Group invest in the Sun Company?

Kim Eaves, president of Affiliate Energy Group, invested specifically for the technology's practical benefits: "I chose to invest in The Sun Company and The BESSt Company because their technology directly tackles the demand charges and peak power costs that have long burdened my customers.

Are investors hoovering up renewable assets?

"Major investors like Brookfield Asset Management and CDPQ are 'hoovering up renewable assets' at attractive valuations," notes one industry analysis, suggesting long-term investors view current conditions as buying opportunities.

Are energy storage systems in demand?

Energy storage systems are increasingly in demand to increase the effectiveness of solar power arrays, with the Energy Information Administration estimating in February that new utility-scale electric-generating capacity on the U.S. power grid will hit a record in 2025 after a 30% increase over the prior year.

Is Bloom Energy a good energy storage stock?

Bloom Energy is one of the smaller picks on this list, but it may be the most dynamic energy storage stock out there. It specializes in advanced fuel cell energy platforms, which use a proprietary solid oxide technology to convert natural gas, biogas or hydrogen into electricity with low or even zero carbon emissions.

Is lithium ion the future of stationary energy storage?

The second gap involved technology. "I didn't believe lithium ion was the future of stationary energy storage," Michaelson says, referring to fixed-location energy storage systems for homes, businesses, and industrial

facilities—distinct from mobile applications like electric vehicles. The third gap went deeper than business fundamentals.
