

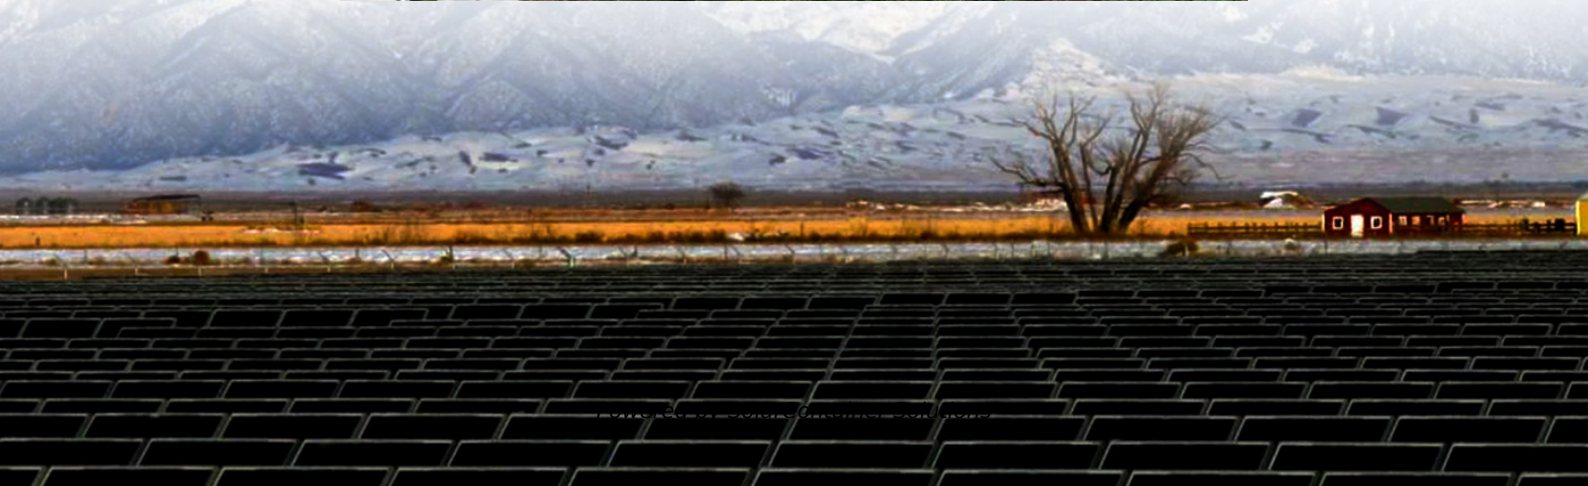

Photovoltaic energy storage system lithium battery warranty

Overview

With most lithium core solar battery systems, the manufacturer will offer at least 10 years of coverage. To understand what exactly is covered by your warranty, it's important to carefully review the product and service guarantees offered by the manufacturer. What is a warranty on a solar photovoltaic system?

When deciding on a solar photovoltaic system, there are a variety of guarantees and warranties. The two that are most commonly referenced are the Production Guarantee and Performance Guarantee. These are easy to confuse, especially since they are often misused interchangeably.

Which battery storage system has the strongest warranty?

Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty. Why are battery warranties important?

A battery storage system is a decades-long investment that a warranty can help protect.

How long does a battery warranty last?

A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery. Battery warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment.

Does a battery Installer have a warranty?

Most battery manufacturers leave workmanship (labor) warranties to the installer. Still, like labor and shipping costs, some companies offer an extra safeguard by tacking on their own workmanship warranty coverage. When applicable, it's typically only an option if you work with specific installers in a manufacturer's certified network.

Does a battery warranty cover labor costs?

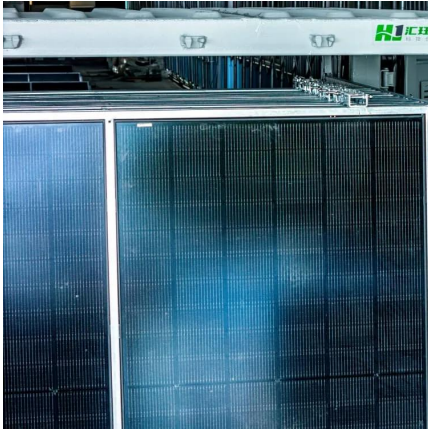

Battery warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment. Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty.

Does a battery storage system need a warranty?

A battery storage system is a decades-long investment that a warranty can help protect. The less power your system stores, the more your home may need to draw from the utility company, which eats into your savings. A good warranty ensures that if your battery experiences a problem, that it will be replaced and your investment will be protected.
