

Polish new energy storage equipment manufacturer

Overview

By March 2025, the commercial and industrial high-voltage energy storage products, including the Merc series hybrid inverters, CAL battery clusters, and OBE energy storage cabinets, are expected to enter large-scale deployment, providing efficient and reliable energy storage services for commercial and industrial users in Poland and neighboring markets. What is Polish Energy Storage Association?

Polish Energy Storage Association – together we are building a modern, solid and secure electric power system in Poland. We are integrating innovative companies and organisations involved in developing the power sector and environment protection, we are promoting and supporting energy storage facilities.

Is Poland a key player in Europe's energy storage sector?

Poland is emerging as a significant player in Europe's energy storage sector. The recent capacity market auctions in December 2024 highlighted a substantial shift towards BESS, with approximately 2.5 GW secured by new generation capacity market units, predominantly Li-ion energy storage projects.

What is PGE Group's energy storage portfolio?

Today, PGE Group's energy storage fleet stands at nearly 7 GWh. It is comprised almost exclusively from pumped hydro storage facilities aside from three single-digit-megawatt battery energy storage systems. The planned investments will help diversify the utility's storage portfolio.
