

Portable outdoor communication power supply BESS solution

Overview

What is a Bess system?

This BESS system provided the client with an energy solution that provides rapid power delivery to remote sites with the ability to leave a renewable power source connected for an extended period of time.

What is Bess & apex Energy Monitoring portal?

Suitable for a wide range of mobile communications applications including off-grid, emergency backup power, energy stabilisation and frequency response. Designed to be 'plug and play', BESS ensures swift installation and provides peace of mind. Apex Energy monitoring portal helps customers to keep an eye on multiple systems from a single location.

What is a able portable power station?

Able portable power stations are energy storage systems that have battery packs using the latest and safest LiFePO4 Lithium technology.

What makes able portable lithium power station a good choice?

As a high-performance extra LiFePO4 battery system, the Lithium Iron Phosphate technology provides high durability that is efficient and safe. The Able portable lithium power station also boasts a long lifespan of over 10 years with daily use.
