Could solar power be the future of energy in Congo?

Congo is one of the top five oil producers in Sub-Saharan Africa. But despite its rich energy resources, the electrification rate is low, especially in rural areas, mainly because of a lack of electricity infrastructure. But solar power could be the future as it is also said to be cheaper for households.

Which country imports the most solar panels?

Vietnam is the largest importer of Solar Panel, its contribution of 95,536 import shipments attests to its significant market share of 25%. Following Vietnam, United States emerges as a key player with 68,998 shipments, securing an 18% market share.
