

# **Provide energy storage for China Southern Power Grid**

#### **Overview**

Does China Southern power grid support grid-forming storage plants in Xizang & Yunnan?

During the reporting period, the company successively supported the grid connection of more than ten grid-forming storage plants in Xizang and provided system solutions for China Southern Power Grid's first grid-forming storage project—the Wenshan plant in Yunnan.

What is China Southern power grid's Guangxi Power Station?

Constructed by China Southern Power Grid's Guangxi branch, this station is only the first phase of a larger 100-MWh project. When fully operational, this initiative is expected to annually supply 73 million kWh of clean power, adequate to meet the needs of 35,000 households, while simultaneously reducing carbon emissions by 50,000 tons.

Where is China's first large-scale sodium-ion battery energy storage station located?

China has made a groundbreaking move in the energy sector by putting its first large-scale Sodium-ion Battery energy storage station into operation in Guangxi, southwest China. This 10-MWh station marks a significant leap towards adopting new, cost-effective battery technology for widespread use.

Who are the members of CSG energy storage & NIO Power V2G?

Li Dinglin, General Manager and Deputy Party Secretary of CSG Energy Storage, Lu Wensheng, Deputy General Manager and member of the Party Committee of CSG Energy Storage, Harry He, Head of NIO Power System Management, and Hu Weifeng, Head of NIO Power V2G attended the ceremony.
