

Reference price of China-Europe quality lithium battery pack

Overview

How much does a lithium battery cost in China?

Meanwhile, the stationary storage market has surged, with intense competition among cell and system suppliers, particularly in China. Regionally, the average prices of lithium battery packs were lower in China, at \$94 per kWh, while prices in the U.S. and Europe were 31% and 48% higher, respectively.

How much does a lithium ion battery cost?

The electric vehicle market, the primary driver for lithium-ion batteries, grew more slowly than in previous years but still showed the lowest price at \$97 per kWh. Meanwhile, the stationary storage market has surged, with intense competition among cell and system suppliers, particularly in China.

How much does a lithium battery cost in 2024?

In 2024, the average global prices of lithium-ion batteries dropped by 20%, reaching \$115 per kWh. For electric vehicle batteries, the price fell below \$100 per kWh Why Are Lithium Battery Prices Falling?

.

How much does a Li-ion battery cost?

As of Q1 2025, the average li-ion cell price is around \$85 per kilowatt-hour (kWh) at the pack level, down from \$101/kWh in 2022, according to BloombergNEF. For individual cells, prices vary significantly: 21700 vs 18650 Battery What Difference is between them?

Prices are also affected by order volume.

How much does a lithium battery cost in 2022?

However, 2022 saw a 7% price spike due to lithium supply constraints. LFP

batteries now dominate stationary storage at \$105/kWh, while NMC remains preferred for EVs despite higher costs (\$130/kWh). Maintenance-free sealed AGM battery, compatible with various motorcycles and powersports vehicles.

Why are battery prices so low in China?

Companies in China faced fierce competition this year. These conditions resulted in falling battery prices and lower battery margins, forcing many battery manufacturers to enter new markets, including energy storage, while also eyeing overseas markets willing to pay more for batteries. The industry has also benefitted from low raw material prices.
