

Ring 1 5V to 12V inverter

Overview

What is ring's new inverter range?

The new inverter range from Ring has been developed to address the specific issues raised by vehicle converters and fleet managers, who need highly efficient, compact power sources in their vehicles when they are being used to work remotely.

What is a ring 500W inverter?

The Ring RINVU500 is a compact 500W inverter, to convert 12V DC power to 230V. Provides mains power straight from your car - ideal for business trips, road trips and holidays. Suitable for use with devices up to 500W, such as charging a digital camera, powering a desktop PC, small electric drill or a small fridge.

Are ring inverters reliable?

Ring's inverters provide a reliable source of mains power while working remotely. The PowerSourcePro and PowerSourcePure range of commercial grade inverters provide an AC mains power source from the vehicle battery, allowing operation of mains powered electrical equipment on the move.

What is a 12V & 24V inverter?

12V inverters and 24V inverters for vehicle conversion. Suitable for commercial use. Provides mains power off-grid in work vans and vehicles.

What are the new inverters?

The new inverters feature extruded metal casings, making them robust enough to withstand tough working environments, as well as heavy duty input cables and clamps. The new range includes models with a range of power outputs, from 600W and up to 4000W, available in Pure Sine Wave and Modified Sine Wave, with SRPs starting at £229.

What is a new range of inverters?

A new range of inverters sets to improve efficiency, power management and reduce installation space in for professional vehicles.

Ring 1 5V to 12V inverter
