

Romania new energy storage power supply manufacturer

Overview

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Florești, Cluj county, which is expected to be operational by the end of 2025. Will Romania add energy storage to its solar PV portfolio?

A 70MWh project from DNO and IPP Electrica won a €3.4 million grant in September while IPP Econergy told Energy-Storage.news at Solar Media's Energy Storage Summit Central Eastern Europe (CEE) 2024 that it was planning to add energy storage to its large solar PV portfolio in Romania. See recent coverage of the Romanian energy storage market [here](#).

Will Romania supply energy security?

Andreea Campeanu for The New York Times "We will supply energy security for the neighborhood," Virgil-Daniel Popescu, Romania's energy minister, said in an interview after lawmakers passed legislation designed to encourage investment in gas production.

Is monsson launching a patented energy storage system in Romania?

The firm's 24MWh BESS under construction in Romania, which came online earlier this year. Image: Monsson. IPP and energy trader Monsson has kicked off the environmental permit process for a 2GWh BESS project in Romania, which an executive said will use its own patented energy storage solution.

Could monsson use Northvolt batteries in Romania?

Sweden's ambassador to Romania attended Monsson's 24MWh project inauguration and Enache said at the time that Monsson was considering projects in Sweden, which could use Northvolt's batteries. Monsson is also close to expanding the 24MWh project to 96MWh, with testing on the additional capacity due soon.
