

# **Russian container power generation prices**

## Overview

---

Does Russia have a two tier electricity market?

Segmentation of the Russian electricity market Russia currently has a two-tier electricity and capacity market (wholesale and retail).

How much electricity will Russia generate in 2040?

The electricity generation in Russia registered over 1 billion kWh for the first time in 2016. The Russian government expects that its annual electricity generation will see a 22%-48% growth by 2040. The investment demand in the electricity generation sector alone will exceed USD 130 billion and in the transmission field as high as USD 485 billion.

How much electricity does Russia generate a year?

Russia's annual electricity generation is second only to China among the Belt and Road countries over the years. The electricity generation in Russia registered over 1 billion kWh for the first time in 2016. The Russian government expects that its annual electricity generation will see a 22%-48% growth by 2040.

Does Russia have a competitive electricity market?

Russia has basically established an electricity market which is highly competitive and market-oriented with high standardization since its reform in 2006, which is much more complicated than the traditional overseas electricity markets familiar to Chinese companies. I. Legislative framework of the Russian electricity market
