

Seychelles photovoltaic inverter subsidies

Overview

The Financial Rebate Scheme will allow for anybody in Seychelles to have a 35 percent financial rebate on any PV system up to 3 kilowatt peak (kWp). Who will be subsidized for solar PV systems in Seychelles?

Domestic and commercial entities alike, will be subsidized varying amounts (depending on sector and system size) when purchasing and installing solar PV systems. The Global Environmental Facility and the Government of Seychelles, have created a fund of \$1.4 million to be used under this component of the project.

What is the financial rebate scheme in Seychelles?

The Financial Rebate Scheme will allow for anybody in Seychelles to have a 35 percent financial rebate on any PV system up to 3 kilowatt peak (kWp). Domestic and commercial entities alike, will be subsidized varying amounts (depending on sector and system size) when purchasing and installing solar PV systems.

What is a people-centred energy transition in Seychelles?

An exciting people-centred energy transition is underway in Seychelles, an archipelago of 115 islands off East Africa in the Indian Ocean. Spearheaded by the Seychelles Energy Commission, the PV democratisation 2.0 project is the recipient of the Climate Investment Platform's Thomas Jensen Energy Transition Award.

What is the Seychelles energy plan?

It targets an ambitious transformation and diversification of the Seychelles' currently 85 MW diesel-dominated electricity generation capacity (on Mahé, Praslin and La Digue), aiming at replacing diesel generators with domestic and international public and private financing.

How does UNDP support the Seychelles Energy Commission?

Through the Climate Investment Platform, UNDP is supporting the Seychelles Energy Commission's initiative to make the adoption of renewable energy accessible to the population that would otherwise not be able to afford to do so.

What does the Seychelles Energy Act cover?

The Seychelles Energy Act caters to the establishment and management of the Seychelles Energy Commission (SEC) and the Seychelles Energy Board. It also makes provisions for electricity-related activities, renewable energy sources, energy efficiency, clean development mechanism, tariffs, and charges, consumer protection rights, and the issuance of licenses and permits.
