

Site Energy Battery Cabinet Battery Replacement

Overview

What is a datasafe Xe Battery Cabinet?

DataSafe HX battery cabinet systems are factory pre-wired to minimize installation time. The cabinet design optimizes the overall footprint. DataSafe XE batteries, manufactured with Thin Plate Pure Lead (TPPL) technology, are specifically designed for shorter duration autonomies.

Why do we need a backup battery cabinet?

Through cutting-edge research and innovation, advanced engineered power products for backup battery cabinets have become essential to our energy future. When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible.

What is a datasafe HX Battery Cabinet?

The HX battery cabinet offering now makes the DataSafe HX battery the ideal choice to optimize your UPS system installation, while offering flexibility in allowing customized options enabling you to design the perfect system for your particular application. DataSafe HX battery cabinet systems are factory pre-wired to minimize installation time.

Why do we need a battery enclosure?

When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible. The role of batteries in producing emergency power supply for industries across the country is vital for our infrastructure. C&C Power Battery enclosures are configured to meet the need of all types of applications.
