

Solar dual-use on-site energy outdoor

Overview

Dual-use photovoltaic (PV) systems offer an innovative solution by integrating solar panels with existing land or infrastructure. This innovative approach enables simultaneous land use or energy production alongside essential activities such as farming, water management, and urban infrastructure.

Solar dual-use on-site energy outdoor

Renewable Energy, NJ OCE Web Site

Dual-Use Solar Pilot Program The Pilot Program is designed to encourage the development of dualuse solar facilities and the creation of a new segment of the solar industry in New Jersey ...
