

Solar photovoltaic panel profile roof

Overview

For North American solar systems, the best roof design for solar panels is one with a large, unshaded south face (an azimuth of 180 degrees). Not having a south-facing roof is not a deal-breaker.

Solar photovoltaic panel profile roof

Solar Photovoltaic: SPECIFICATION, CHECKLIST AND GUIDE

Builders that intend to meet both the solar PV and solar water heating RERH specifications should detail the location and the square footage of the roof area to accommodate both technologies.
