

Solar power generation system plus sun room

Overview

What makes a sunroom a great addition?

Sunrooms are the perfect four-season addition to increase the view and create a focal point for any home or business. Solar Innovations ® 's custom designed structures include durable aluminum framework. They are tailored with the most comprehensive line of aluminum accessories in the industry.

Do sunrooms add value?

Not only do sunrooms expand conditioned living space, they also provide natural light, protection from the elements, and scenic seating areas for dining or simply enjoying nature without having to leave the building. In addition, the addition of a glazed structure adds to the property value.

Are sunrooms a 4 season addition?

Sunrooms are the perfect four-season addition to increase the view and create a focal point for any home or business. All sunrooms are completely custom.

What glazing options does solar innovations offer?

Solar Innovations has top of the line glazing solutions which include laminated, dual glazed, triple glazed, & marine glazed options just to name a few. Solar Innovations ® manufactures the highest quality glazed structures custom designed and engineered to match individual customer's needs with a large variety of styles to choose from.

Are solar glazed structures a good choice?

Solar's glazed structures are constructed from durable aluminum framework and the HVHZ certifications speak to the strength engineered into every structure solar produces. Though preferential in many commercial applications, an all-aluminum structure is not always ideal for a residence.
