

South American lithium battery pack

Overview

Is South America a key player in the lithium-ion battery industry?

As the global demand for electric vehicles (EVs) and renewable energy storage grows, South America is emerging as a key player in the lithium-ion battery industry. The region is home to some of the world's largest lithium reserves, particularly in Argentina, Bolivia, and Chile—often referred to as the “Lithium Triangle.”.

What are the top 10 lithium-ion battery manufacturers in South America?

This article explores Top 10 Lithium-Ion Battery Manufacturers In South America; CATL, Companhia Brasileira de Lítio (CBL), YPF-Tec, BYD, LG Energy, Panasonic, SQM, EnerSys, Duracell, and Saft. Last Updated on February 21, 2025.

Where are lithium batteries made?

The region is home to some of the world's largest lithium reserves, particularly in Argentina, Bolivia, and Chile—often referred to as the “Lithium Triangle.” In recent years, several manufacturers in South America have been developing lithium-ion battery production capabilities to meet the increasing demand for sustainable energy solutions.

Where is South American lithium located?

Located in the heart of the lithium triangle South American Lithium owns 50,000+ hectares throughout the El Quemado mining district. The El Quemado project is within one of the finest spodumenic areas in all of Argentina where the potential for mineralization of lithium, columbite-tantalite and rare earth minerals is outstanding. What Is Lithium?

.

Is lithium a good material for a rechargeable battery?

Lithium is the lightest metal and least dense solid element. It's high electrochemical potential makes it an extremely valuable component of high energy-density rechargeable batteries. El Quemado has tenements covering 50,000 hectares in the South America region, prospective for lithium mineralization.
