

Sphere Onsite Energy installs solar panels

Overview

Does sphere solar energy come with free software?

Every Sphere Solar Energy installation comes with free access to the Enphase Enlighten software program that allows you to monitor the energy production of your system. Sales in electric cars are exponentially increasing, and for good reason.

Does sphere solar energy install Enphase batteries?

Sphere Solar Energy is a certified installer for the most advanced battery manufacturers in the market. We work most frequently with Enphase batteries because of their . Every Sphere Solar Energy installation comes with free access to the Enphase Enlighten software program that allows you to monitor the energy production of your system. .

Are sphere solar panels backed by a warranty?

Once installed, these industry-leading panels are backed by a 25-year equipment warranty and our 10-year workmanship warranty. Sphere Solar was outstanding throughout the entire project to install a solar system for my single-family home.

What types of solar systems do sphere solar energy use?

We use Tier 1 solar modules, battery energy storage solutions, and EV charging stations designed to maximize energy performance while offering decades long warranties. Sphere Solar Energy is a minority-owned business enterprise and union-signatory electrical contractor.

What can I do with my solar array?

Included with every installed system is a software program that allows end users to monitor on-site energy production and consumption. And if you wish to add further value, we can connect your solar array to a battery storage system or an electric car charging station.
