

# Tanzania s 100 billion energy storage power station

#### **Overview**

Tanzania is endowed with diverse power sources including biomass, natural gas, hydro, coal, geothermal, solar, wind, and uranium, much of which is untapped. Tanzania's total power installed capacity is 1,938.

#### Tanzania s 100 billion energy storage power station

#### **Clean Energy Transition in Tanzania**

A clean energy transition will have a cumulative cost of more than USD 100 billion until 2050, about the same as the cost of implementing the existing Power System Master Plan.
