

The nearest new energy charging station

Overview

How can I find EV charging stations?

To find EV charging stations, download the EVgo app and discover our 1,000+ stations. You can also contact the EVgo Charging Crew with any EV charging-related questions.

Where can I find a charging station?

ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto and Android Automotive. Specific city pages provide a good overview of charging stations in a particular city. For larger cities like Los Angeles, New York, San Francisco and Seattle you can find more information about charging stations.

How do I find out if a charging station is nearby?

The station page shows the charging speed, outlet type, number outlets, price, which operator owns the station, and other relevant location information. With ChargeFinder's "Food and Shopping Nearby" it's easy to find out if there are eateries or other points of interest adjacent to the charging station.

How much power does a destination Charger provide?

Destination chargers usually provide an output from 3 kW to 22 kW. Various shades of orange markers on the map means destination charging. Light orange means 3-7 kW and the darkest orange shade means 22 kW. The most common are fast chargers that provide 50 kW which are shown in dark blue on the map.
