

Overview

Can a portable power station be used as an uninterruptible power supply?

Yes, a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features, like automatic switchover when power loss is detected.

What should I consider when buying a portable power station?

The most important thing to consider when shopping for a portable power station is the amount of power and battery capacity you need. The price range for portable power stations can range from a fairly inexpensive product to a large-sized investment.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. [↓ Jump to the Rest of the Field](#) [↓ What to Know Before Purchasing a Portable Power Station](#).

How to choose a portable power station for camping?

Setting one up inside a home or workshop means close quarters, and loud models could literally require hearing protection. A portable power station for camping should also be quiet, or else it may disturb the neighbors. Typically, electric and solar power stations make for the quietest generators available.

What spec should you consider when buying a power station?

Whatever the reason you are purchasing a power station, the most important spec to pay attention to is watt hours, which is a measurement of how much energy the power station can hold. While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.
