

# **Ukrainian Industrial Park Energy Storage Industrial Park**

## Overview

---

Where are industrial parks located in Ukraine?

According to the industrial park catalog from the Ministry of Economy, the largest number of IPs are located in Lviv (19), Kyiv (13), and Zakarpattia (10) regions. Source: Catalog of Industrial Parks Ukraine has experienced several waves of industrial park (IP) registrations.

Why do we need eco-industrial parks in Ukraine?

In Ukraine, it enhances environmental, economic, and social performance in local businesses and industries by promoting eco-industrial park approaches and demonstrating their viability in scaling up resource productivity. Eco-industrial parks are key drivers for inclusive and sustainable industrial development for a variety of reasons.

How can Unido help industrial parks transition into eco-industrial parks?

UNIDO has been providing technical assistance to three selected industrial parks - BVAK in Bila Tserkva, AgroMash in Zaporizhzhia and Patriot in Sumy - to facilitate their transition into Eco-Industrial Parks. UNIDO adopts a multifaceted approach, which includes policy support, capacity building and upscaling of best practices and technologies.

What are the benefits of industrial parks?

Industrial parks offer businesses not only production spaces but also ready-made infrastructure (electricity, gas, and water supply) and a business environment. The concentration of various enterprises within one area creates opportunities for establishing production chains, exchanging experience, and fostering collaboration.

How much does it cost to build an industrial park?

Currently, most industrial parks are greenfield sites without buildings, electricity, or infrastructure. According to the industrial parks catalog: Building

the necessary infrastructure requires significant investment. "Developing an industrial park can cost a managing company or an initiator 20–80 million UAH.
