

Ukrainian power grid energy storage solution

Overview

This project consists of six battery energy storage systems that can collectively store 400 MWh of electricity, sufficient to supply power to 600,000 homes for two hours. The systems are intended to enhance Ukraine's grid stability and resilience, especially ahead of the winter season.

Ukrainian power grid energy storage solution

DTEK and Fluence energise the largest energy storage portfolio ...

22 hours ago· The project includes six battery energy storage systems of varying capacities - from 20 to 50 MW each - connected to the Ukrainian power grid.
