

Venezuela imported household energy storage

Overview

What is the main source of revenue for the Venezuelan government?

PDVSA is the largest source of revenue for the Venezuelan government. When Venezuela nationalized its oil industry in the 1970s, PDVSA was formed. The government gave the company significant autonomy until the 1990s, when it took direct control of PDVSA.

What is the Venezuela plan for the national electric system?

The Venezuela Plan for the National Electric System aims to integrate renewables in the power system by including it in medium and long-term strategies. It aims to develop the use of renewables within isolated rural communities including solar, small hyd.

How much natural gas does Venezuela have?

Venezuela has significant natural gas reserves, accounting for 73% of total natural gas reserves in South America and totaling 195 trillion cubic feet (Tcf) as of 2023.²³ The majority of the country's natural gas reserves are associated with crude oil; around 80% of produced natural gas is associated gas produced as a by-product of oil production.

Why did energy production decrease in Venezuela?

These factors led to a lack of investment and maintenance in the energy sector and a deteriorating infrastructure.¹ As such, Venezuela's total energy production decreased by an annual average rate of 8.2% from 2011 to 2021. Petroleum and other liquids accounted for most of the energy production decrease.²

Why is Venezuela struggling with oil & natural gas development?

Furthermore, budgetary constraints at Venezuela's state oil company PDVSA and a lack of qualified technical personnel and foreign direct investment have all hampered Venezuela's oil and natural gas development. PDVSA is the

largest source of revenue for the Venezuelan government.

What is the role of coal in Venezuela's energy mix?

In comparison to oil and natural gas, coal plays a minor role in Venezuela's energy mix, accounting for 0.2% of total energy production and 0.1% of total energy consumption. Venezuela's coal industry has faced challenges such as outdated infrastructure and limited investment, which has affected production.
