

## What are the capacities of energy storage cabinets

### **Overview**

For Home Use: If you're relying on the storage cabinet for backup power, the typical capacity ranges from 5kWh to 20kWh. If you have a solar system, selecting the right storage capacity can help store excess energy generated during the day for use at night or on cloudy days.

## What are the capacities of energy storage cabinets

#### EnergyPack P200 , 188kVA 188kWh Battery Storage

The EnergyPack P200 is a compact 10ft battery storage cabinet with 188kVA and 188kWh capacity to reduce energy costs, ideal for off-grid applications.
