

What communication base stations are there in East Africa

Overview

Where are Chinese telecom companies based in Africa?

9.2. Targeted Countries in Africa The top African telecom markets for Chinese companies are Algeria, Egypt, Tunisia, Morocco and South Africa, comprising 60 percent of China's total telecom assets on the continent. Outside of these, only Nigeria and Angola are becoming truly significant.

Are Chinese telecommunications developing in Africa?

Of importance here is that Chinese telecommunication developments in Africa have initially focused on coastal countries – those that strategically straddle main shipping routes and strategic choke-points – known in military parlance as sea lanes of communications (SLOCs).

Who are China's key players in Africa's telecom industry?

While international attention has tended to focus on Africa's new private operators such as Vodacom, MTN and Celtel, Chinese firms are emerging as key players in the supply of technology and equipment for networks typically to national telecom incumbents.

How can Chinese telecommunication companies help poor African countries?

As a result of government support for its telecommunication companies, Chinese flagship companies, Huawei Technologies, ZTE and ASB can keep their prices extremely low, and tailor-make solutions for poor African countries.

How did Telecom Egypt build a multi service access network?

In addition, Telecom Egypt built a MSAN (Multi Service Access Network) nationwide comprising 500 000 lines which made use of Huawei's Honet access network solution. Telecom Egypt also deployed Huawei's OptiX 10G equipment to build the core Cairo Metropolitan network, which has more than 50 nodes.

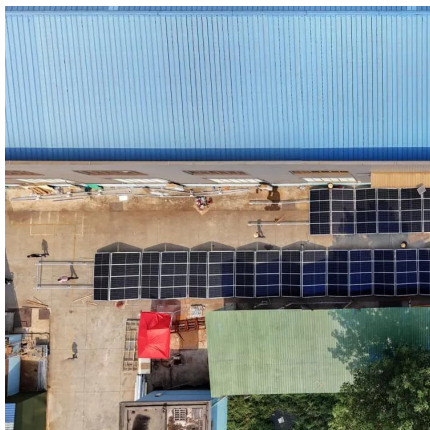

Why did China invest in Africa's telecommunications sector?

China's participation in this project emphasizes the high priority being afforded to economic engagement with African countries in the field of telecommunications. Cumulatively, the ICT sector in Africa attracted a total of almost US\$3 billion of Chinese investment between 2001 and 2007.
