

Where to check PV panel prices

Overview

How much does a CPV solar system cost?

Concentrated photovoltaic (CPV) panels are \$0.80 to \$1.10 per watt. While not as well-known as other types of panels, CPV panels are highly efficient and may grow in popularity. A 6 kW solar system would cost \$4,800 to \$6,600. A single solar cell costs about \$0.30 and most panels use 60 or 72 cells. The more cells in a panel, the higher the cost.

How much does it cost to install solar panels?

Find a solar panel installer near you to get an estimate for your home. An average 1,500 square foot home will likely need 16 panels to cover its electric usage. If your home is shaded or faces east/west, you might need more than 16 panels. While panels themselves cost \$0.70 to \$1.50 per watt, the price to install solar panels costs \$3.20 per watt.

How do I finance my solar panels?

Many top solar companies, like Blue Raven Solar, offer other ways to finance your solar panels, including power purchase agreements (PPAs) or some combination of a solar lease and solar loan. A PPA is similar to a solar lease, only an energy company owns and installs the panels, and you pay for the energy produced.

Should you buy a solar panel?

Think of using the calculator like checking the Kelly Blue Book value of a car you want to buy. Just having a baseline solar panel cost can help you avoid scams, reduce sticker shock, and give you a head start on saving up cash or improving your credit to secure financing.

Are monocrystalline solar panels expensive?

Currently, monocrystalline panels are the most cost effective. While they are the most expensive, they are also the most efficient (which helps you save the

most money). What are the three types of solar panels?

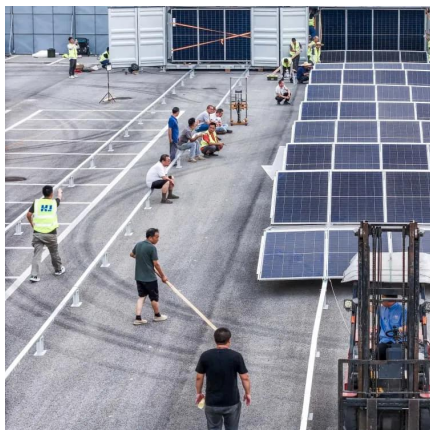

.

How do I pay off my solar panels?

Paying in full is a great way to pay off your system because you won't incur interest fees, but taking out a loan is the next best and most common option due to the high costs of solar panels. If you choose to lease your panels, it may cost less up front, but you'll be ineligible to receive the 30% federal tax credit.
