

Yemen s 1GW energy storage and photovoltaic complementary

Overview

Will a 120 MW solar plant be built in Yemen?

Masdar has signed a joint cooperation agreement with Yemen's Ministry of Electricity and Energy to build a 120 MW solar plant in Aden. It will be the country's first large-scale renewable energy project. Image: IFC, Al Kuraimi. Masdar, an Abu Dhabi-based renewables developer, is set to build a 120 MW solar plant in Yemen.

How much solar power does Yemen have?

According to the International Renewable Energy Agency (IRENA), Yemen's cumulative renewable capacity was 253 MW at the end of 2021, all from solar. Reports from local NGOs and the Ministry of Electricity and Energy put the country's total installed solar capacity between 300 MW and 400 MW in 2018.

What is a solar project in Yemen?

The deal includes the construction of transmission lines and transformer stations. The solar project will be built in Aden. The 120 MW plant will be the "first and the largest strategic project to generate electricity through clean and renewable energy" in Yemen, according to the Yemeni Energy Minister Manea bin Yameen.
