

Zambia Kitwe Independent Energy Storage Project

Overview

Is Kitwe a sustainable city?

Kitwe, the second-largest city in Zambia, located in the heart of the Copperbelt, is shining brighter as we capture more of the sun's energy for our development. Kitwe is making strides towards a sustainable future with the development of solar power.

Does Kitwe need a solar power plant?

The solar power plant in Kitwe represents a \$60 million investment, a considerable influx of capital into the local economy. This investment not only underscores the feasibility of solar power in the region but also highlights the growing confidence in renewable energy technologies.

Where is Kitwe located in Zambia?

Kitwe is a large town in Northern Zambia, in the Copperbelt region. It has a small airstrip that is serviced by Air Zambia from Lusaka. Kitwe is located in Northern Zambia, in the Copperbelt region.
